INTRODUCTION

MINDPLAYS is the first platform of fair competition and online P2P games with real rivals in real time.

Our mission is to bring all the online games that exclude randomness factor on the platform, where your victory is the straight result of your tactics and your taken game decisions

Online games market today is a multi-billion dollar business and in recent years vast marketing strategies have been aiming to monetize it.

An enjoyable and attractive game stimulates a user to make purchases and spend real money in an exchange of getting certain and unique advantages within the virtual game, but there is often no way for the user to make money

We have brought the concept of earning in its best way possible, with use of the blockchain technology and the gameplay with cryptocurrency on the only of its kind platform - MINDPLAYS ESPORTS

Esports today is a real and time proven serious industry and professional players are earning impressive amounts of money from tournaments and teams competition among each other.

Nevertheless, it is not quite as simple to get into esports and become a prosperous player - it's a lucky fate of a few chosen ones. It has become real now! You can play your favorite games and compete with real rivals from all over the world, and earn money within the game. Play with a partner, enjoy the game and get crypto along with other pleasant bonuses.

Becoming a professional esports player is now a reality with MINDPLAYS ESPORTS

WHICH PROBLEMS DOES MINDPLAYS SOLVE?

Fair game platform

The global gambling and casino-like games industry often has a purpose of winning over a user, by making chances of the user win minimal through the pre-planned and designed in the program code algorithms, that allow the player win insignificant amounts, yet spend more, which becomes the game with a far-ahead known result for the player, unlike at MINDPLAYS ESPORTS

MINDPLAYS ESPORTS turns your favorite games into pleasing play leisure and opportunity to earn, since the rival you are playing with is a live person. Only real players game excludes a random factor, and your victory is the result of your own skills and tactics.

Hobby as income

Millions of people play online games today, but only MINDPLAYS gives you an ability to play and earn.

Who will not like to get a real reward if they are exceptionally good at a game? Who will not want to compete with the strongest rivals for the real prize? This is not Us!

You have an open opportunity to play and earn, compete in tournaments and win. Everything is honest, and real.

Conflict situations resolution

MINDPLAYS ESPORTS did everything to secure the players from an unexpected game outcome by making the game clear. Each act in the game is fixed and recorded, and if a potential conflict situation arises, the both parties will see the chronology of each player's acts. This way, any uncertain situation will be simply and decisively resolved.

RESOLUTION

MINDPLAYS ESPORTS - the future, or the moment of the games world

MINDPLAYS ESPORTS platform has made a millions' dream a reality - a fair, real game and real earn opportunity. This system works so simple, that needs no further explanation

Globality and universality of the platform

There is no limit for MINDPLAYS - all the games that exist and even those that have not been yet created can be hosted at the platform, and MINDPLAYS can become the only place where they are wanted to be played.

META and VR

MINDPLAYS ESPORTS is looking into today, glancing into tomorrow. We are developing and integrating new technologies for shifting game experience into a deeper quality, virtual and alternative realm.

We are developing and integrating new games that didn't exist before, for our platform, preserving paternity after MINDPLAYS and a sole right for their uniqueness on the platform.

Everything that could be imagined in the world of virtual games is our next step, which we are working on every day and right now.

RESOLUTION

MIND Coin and its place in the world

MIND is the unique token of MINDPLAYS. Our official game fiat, our asset and the tool for realizing the most bold decisions and bright and exciting gaming experience.

A half of net profit of the platform is constantly invested for supporting the stable liquidity and price of the token, via purchasing the public offer by MINDPLAYS ESPORTS Developers.

The future of the crypto-game industry is after MIND. We do not really care about what it will be like, but we know that it will be on MINDPLAYS ESPORTS platform. Let's go!
